

Divisible trolley

062.3500 Fully divisible trolley for flat panels up to 90 inch, 85 kg, single construction

The SmartMetals fully divisible stand is particularly suitable for rental applications. Due to the stand being divided in 4 parts: the base plate, the column in two parts of 95cm and the stand head, the stand and the screen can be transported compact in a flightcase. Furthermore this stand has three separate cable ducts, the screen can be protected from theft by means of a padlock and it can be installed without using any tools. A screen mount with three point coupling bolts should be added, which can be chosen by looking at the weight and mounting pattern of the screen.

Divisible trolley

Features

Maximum length: 2000 mm

Weight: 77.50 kg

Colour: Dark grey, Aluminium
