

## Floor to wall column (Light Series)

### **063.8800-122** Floor to wall column (Light Series) incl. bracket max. VESA 200

Thanks to new techniques monitors are becoming lighter and cheaper. The solid and reliable floor supports from SmartMetals are suitable for these monitors; but to better fit the current monitor weight and price levels SmartMetals has developed a new series Light stands. Alike the monitors lightweight, inexpensive but as solid and reliable as you are used from SmartMetals. SmartMetals developed a room-saving solution, based upon the design of our stand, but then mounted to the floor and fastened to the wall. This solution allows the weight of the screen to be strained on the floor.

## Floor to wall column (Light Series)
