

Are you ready yet for the modern workplace of the future? Discover BRIX - a family of collaboration solutions which easily upgrades to meet your needs.

It's modular. Sustainable. And futureproof.

## The BRIX advantages

### 1. Pay for what you need

Whiteboarding and easy screen sharing might already match your needs. And when your needs change? No problem. It's very easy to transform a basic meeting room into a futuristic huddle. You can do this whenever you are ready for it!

### 2. Easy to upgrade as your business grows

Migrating from one collaboration solution to another is a piece of cake. Quickly gear up your workspaces with the BRIX modules that meet your needs and you're set to go!

### 3. Sustainable

Why would you buy a new touchscreen if we can satisfy your needs with a simple upgrade? We are able to extend the lifespan of your touchscreen by upgrading the BRIX over time. This will save you a lot of money and together we reduce loads of CO<sub>2</sub> emission. Yes, it's a real win-win situation!

## BRIX: a rock solid solution

We keep in mind that we're all different. We work in different ways, we have different needs. And the way we work today can be completely different from the way we'll work tomorrow. Wouldn't it be great if the tools that you are working with today, can still be used in your future workplace? Sounds complicated? Not at all.

Get familiar with our rock solid solution 'BRIX', an innovative, modular concept that uses the touchscreen as a platform. How does it work? Well, simple. We've made part of the hardware

inside our touchscreens modular. This means that you are able to replace a module, or even add a module to your touchscreens. You can start with basic whiteboarding and easy screen sharing. After that, you simply upgrade your screen with a BRIX module to add functionalities such as videoconferencing or room booking.

Whatever your collaboration needs and requirements are, we'll support them with the perfect fit!
