

MagiCable USB-C to HDMI Multiport Adapter

Display 4K UHD video & Charge and Sync mobile devices

1 YEAR
Limited
Warranty

The most popular interfaces in one adapter

Provides HDMI, USB-A, and USB-C ports for connecting devices with these interfaces to a host equipped with USB-C, the new standard for charging, powering, and transferring data via USB.

Takes advantage of advanced USB 3.1 spec

Enables faster charging and syncing with full implementation of USB 3.1 spec, including 10Gbps data transmission rates supporting 4K ultra-high resolution video for stunningly crisp detail and an immersive viewing experience.

Works with full range of USB-C devices

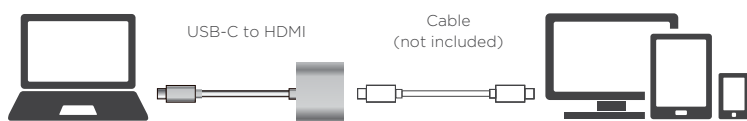

Compatible with MacBook, Chromebook Pixel, USB-C chargers, and future USB-C devices.

Fuss-free connection

USB-C's user-friendly reversible-plug design makes device connection simple, eliminating the annoyance of having to ensure plug is inserted in one of two orientations.

Designed for durability

Braided cable for extra durability; 20-centimeter length cable; available in gold, grey, and silver.

Compatible with:

- Apple MacBook
- Chromebook Pixel
- Other USB-C Devices

Specifications:

Ports	USB-C to HDMI+USB-A+USB-C Multiport Adapter
